

Eede - 1850-1860 Film #0937885

- Original Census enumerated on 25 Mar 1850
- Pages By West, Middern, Oost, Page per Huis Number, End to End Number (Blad #)
- Hand Written Index at very end
- Fairly confusing, since they marked out every one moving within the town as well as immigration/emigration. So, marked out as leaving this address and repeated at new house location, with notes for Moved to Blad#xx within the book.
- Also, no relationships given in this census (hoofd, vrouw, zoon etc)
- Also, looks like it covers at least 1850-1860, but maybe the new 1860 book not started until mid 1861 or later? There are pencil entries on certain pages with event tracking after 1860(?). For example, Johannes, Barbara, Jacobus are all pencilled in as new family at 32 Scheidings pad, but that birth, marriage etc did not happen until mid-1861. In 1860 census these people are all listed in original writing (should have shown 1860 start with changes happening in 1861). 1860 Census is not dated for start date.
- Also, cannot tell when Johannes first appeared at 49 Biesenstraat. No dates listed for last three entries, and numbered back at person #3 (after 1-8 already listed?). Entry is ink, implying original.. so there for entire 1850-1860? Or... was that later (after 1860) entry.. pending 1860 ledger start?

Nathalia, 5 Jan? 1853?, Maldegem (Probably not their child? Relative?)
Johannes, --, Maldegem (Probably not their child? Relative?)

***Note: Family moved from Huis #26, West in 1854 and this ledger entry created at that time. The original family entry had Idonia Maria Van Rie, 1 Jul 1850 among members, then whole family crossed out when moved to here. Looks like Idonia Maria dropped when transcribed.. plus there are light pencil marks over the Nathalie entry on this record.. trying to make it Idonia and looks like date correction from Jan to Jul and 1850 from 1853??

***Re-check BOTH ledger entries.. is there a Nathalie? Yes, only in Huis #21 entry.

***Also, it looks like when this 1850 ledger was transcribed to the 1860 Census.. Idonia also missing from there. However, have actual birth/marriage records confirming Idonia Maria, dates, parents. Also tafels show both Idonia's and the death of the first one in 1855. However, since this doesn't show parent/relationships. Is it possible that same family had an Idonia and an Idonia Maria at the same time?

***Here is Huis 26, Blad #31 (out of order..)

****Note:** Since Johannes had National Service 1848-1852... possible he arrived and was here by 1850? All these various people at 49 Biesenstraat.. possible border guards on military/national service? Or just boarding house for workers? (mixture of male / female?). Also doesn't show him coming / going within Eede, even though he is also shown pencilled in at 32 Scheidings pad with Barbara V at some point? Possible here from 1850 all the way through Jun 1861 when married and moved to 32 Scheidings pad.. picked up changes in 1860 Census ledger? Or... last three entries were later, since they do not have full info.. meaning he did not arrive until after 1860 and was pencilled in, pending new 1860 ledger?
