

Went through one really good set of records (but lousy on the eyes!!) on 16 mm microfilm- called Tienjarige Tafels (10 year tafels, birth, death, marriage) from Eede for 1843-1892. Film was from Eede, only, alphabetical, by 10 year increments of each- birth, death, marriage, all photos of a ledger book entry- in Dutch script! Some handwriting was good, some not! In any case, found lots of Standaerts (ours and others), also lots of Verhulst's and tons of Verstraete's. Only difficulty was- not relationships- just names and dates, alphabetically. Plus reading some of the dates and names was still guesswork (can see how we get so many differences in dates and names!! Who read what record, how many times transcribed etc).

**Newte-- now that I have all the Verhulst's--- seems like great-grand-mother was a Barbara Verwulst, not Verhulst!! (both families in Eede records!)
